## ABOUT THE UNIVERSITY

Annamalai University, one of the largest unitary, teaching, and residential universities in Southern Asia, was established in the year 1929 as per the Annamalai University Act 1928 (Tamil Nadu Act 1 of 1929). Now, the Annamalai University Act, 1928 has been repealed and replaced by the Annamalai University Act 2013 (Tamil Nadu Act 20 of 2013). His Excellency the Governor of Tamil Nadu is the Chancellor of the University.

The University is located at Annamalainagar, adjacent to Chidambaram town, the abode of Lord Nataraja, the Cosmic Dancer. The sprawling and scenic campus, spread over an extensive area of about 800 acres has the Faculties of Arts, Science, Indian Languages, Engineering and Technology, Education, Fine Arts, Agriculture, Medicine, Dentistry and Marine Sciences.

This University has, since its inception, aimed at imparting education in all fields of knowledge to thousands of students from across the country and abroad. Located in a rural setting in coastal district of Cuddalore in Tamil Nadu, the University has played a pivotal role in providing access to higher education to thousands of youth from economically and socially disadvantaged classes. In this respect, this university's service to the nation is tremendous.

In past 85 years, the University has grown into a premier institution of higher learning and research. This is evident from the reports of Ministry of Science and Technology ("Measures of Performance of Universities in India: An analysis of the Publication Output in Science and Technology" published by CSIR – National Institute of Science and Technology and Development Studies, New Delhi – 2011, p.102) that ranks **Annamalai University in the ninth position within the top ten Universities, among 600 and odd Universities in India, regarding the overall science publication output.** In respect of Environmental Science, the University is ranked second, in Energy fourth, in Engineering Sciences fifth and in Biological Sciences eighth.

The Scimago (Scopus) survey for ranking Universities, educational institutions and sponsoring agencies across the world has rated Annamalai University to be 22<sup>nd</sup> in India, next to DRDO (Defence Research and Development Organisation) and 7<sup>th</sup> among Indian Universities (Scimago Institutions Ranking Scimago Research Group, 2012. Data source: Scopus®. [www.scimagoir.com](http://www.scimagoir.com)). The popular journal in India *Careers 360* has ranked Annamalai University to be second among four star rated universities among 33 such universities, and well above four other popular Universities of Tamilnadu. This survey has ranked only 10 universities in India above Annamalai University (India's Outstanding Universities, *Careers 360*, March, 2014. [www.careers360.com](http://www.careers360.com), p.16-19).

All the Ten faculties enjoy reputation across the globe for their distinguished record of effective teaching at the higher level, continuing research, and development of human resources.

Multitude infrastructure facilities have been created to cope with the voluminous increase in enrolment of students in various on-campus programmes. New laboratory facilities in terms of space and quality equipment have been provided to cater to the needs of the learners and researchers. Video conferencing, Edusat, campuswide network with 1750 access point and high tech class rooms are some of the new facilities added.

An Internal Quality Assurance Cell is functioning to monitor the quality of academic results. The departments of study conduct national and international seminars, symposia, workshops and conferences to enable teachers and students to explore effective means of improving teaching and research. Students Progression Cell has been created to coach students for taking I.A.S. examinations. In keeping with the national policy of public health, the concept of 'No Smoking Zone' has been put into practice. A Student Welfare Cell, for on-campus students, has been set up to promote personality development.

In order to identify prospective employers and impart training to the students and make them employable, the placement cells are functioning at three different locations: (i) Faculty of Engineering & Technology, ii) Faculty of Agriculture iii) Department of Business Administration. These cells advise students with regard to the choice of careers and higher studies. They help students to undergo in-plant training during semester holidays and also find suitable placement through campus interviews. Seminars and training Programmes on Entrepreneurial Development and Career Guidance are held periodically.

The 1200 bedded teaching hospital with a built-up area of about 6,00,000 sq.ft. provides specialised healthcare services to various sections of the community in and around the campus.

Students can opt to enrol themselves to any of the extra curricular activities like NSS, NCC or YRC. A sports pavilion with modern infrastructure is available for the students to keep them physically fit.

The University Library, named after the eminent scholar statesman and former Vice-Chancellor Dr. Sir C.P. Ramaswami Aiyer, serves as a knowledge resource centre for the students and the staff. The Library is equipped with INTERNET connectivity and CD NETWORK station. Quite a good number of journals can be accessed through the Infonet facility. Science direct is subscribed in which 340 journals can be accessed.

The University has Memorandum of Understanding with many foreign Universities on research collaboration and exchange of students and staff as well.

There are sufficient numbers of hostels for the convenience of the students to pursue their studies on campus. Wi-Fi connectivity is made available to the inmates of the hostel.
