

## INTERNATIONAL CONFERENCES

**1. Rajalakshmi,G., Ashok kumar, R.,and Asokan,k.,(2014),**microcontroller implementation of power factor improvement strategy for a buck – boost AC-DC converter. *IEEE conference proceedings on international conference on computation of power, energy, information and communication*, april, pp.531-535.

**2.Subashini, M. and Ramaswamy, M. (2016),** A Novel Design of Controller for a Standalone Solar Photovoltaic System, *Proceedings of 3<sup>rd</sup> International Conference on Electrical Energy Systems*, Chennai, Tamil Nadu, March, pp: 237- 243.

**3.Baburao pasupalti., Ashok kumar, R., and Asokan, k., (2017a),** An effective methodology for short-term generation scheduling of hydrothermal power system using improved TLBO algorithm, *IEEE conference proceedings on innovations in Electrical, Electronics, Instrumentation and Media Technology (ICIEEIMT)*, karunya university, Coimbatore,pp.229-238.

**4.Baburao pasupalti., Ashok kumar, R., and Asokan, k., (2018a),** An improved TLBO approach for short term hydrothermal scheduling in a competitive energy and reserve market, *IEEE conference proceedings on Intelligent computing and sustainable systems(ICICSS)*, Akshaya college of Engineering and Technology, Coimbatore, pp.473-481.

**5.Baburao pasupalti., Ashok kumar, R., and Asokan, k., (2018b),** A Novel Approach of Non-dominated sorting TLBO for multi objective short-term Generation scheduling of hydrothermal-wind Integrated system,*springer conference proceedings on Electrical, communication and information technology* ,Anantapur.(Accepted for presentation) – conference proceedings to be published by **springer nature** in the **lecturer notes in electrical engineering (ISI proceedings, EI-compindex,Scopus, Meta Press, Springer link and UGC Indexed Journal)**

**6 Arulraj, R., and Kumarappan, N., (2018),** Multi-Objective Hybrid WIPSO OSA Algorithm Based DG and Capacitor Planning for Loss Reduction and Loadability Enhancement in Distributio System",*Proceedings of Seventh meriational Conference on Computation of Power, Energy, Information and Communication (ICCPEIC'18)*, Chennai, March, pp. 471-477 (*IEEE Digtol Library*).

7. **Arulraj, R., and Kumarappan, N., (2018)**, Simultaneous Multiple DG and Capacitor Installation Using Dragonfly Algorithm for Loss Reduction and Loadability Enhancement in Distribution System", *Proceedings of First International Conference on Power, Energy, Control and Transmission Systems (ICPECTS'18)*, Chennai, February, pp. 258-263 (*IEEE DigitalLibrary*).
8. **Arulraj, R., and Kumarappan, N., (2018)**, Hybrid WIPSO-GSA Algorithm Based Optimal DG and Capacitor Planning Considering Different Load Types and Load Levels, *Proceedings of IEEE Congress on Evolutionary Computation (IEEE CEC'18)*, Rio de Janeiro, July, pp. 1-8 (*IEEE Digital Library*).
9. **Arulraj, R., and Kumarappan, N., (2017)**, Optimal Single and Multiple DG Installations in Radial Distribution Network Using SLPSO Algorithm", *Proceedings of Second International Conference on Intelligent and Efficient Electrical Systems, (ICIEES'17)*, Coimbatore, January, pp. 89-96 (*Springer Book Proceedings*).
10. **Arulraj, R., and Kumarappan, N., (2016)**, Optimal installation of multiple DG units using competitive swarm optimizer (CSO) algorithm, *Proceedings of IEEE Congress on Evolutionary Computation (IEEE CEC'16)*, Vancouver, July, pp. 3955-3960 (*IEEE Digital Library*).
11. **Arulraj, R., and Kumarappan, N., (2013)**, Optimal location and sizing of DG and capacitor in distribution network using Weight-Improved Particle Swarm Optimization Algorithm (WIPSO), *Proceedings of International Multi-Conference on Automation, Computing, Communication, Control and Compressed Sensing (iMac4s'13)*, Kottayam, March, pp. 759-764 (*IEEE Digital Library*).
12. **Vigneysh, T., and Kumarappan, N., (2017)**, Stability Analysis and Dynamic Performance Enhancement of Autonomous Micro-grid using Adaptive Fuzzy PI Controller, *Accepted for presentation at IEEE Congress on Evolutionary Computation IEEE CEC'17*, (*IEEE Digital Library*), San Sebastian, Spain, June, 1199-1206.
13. **Vigneysh, T., and Kumarappan, N., (2017)**, Enhanced Operation of Grid-Connected Photovoltaic System Using Interval Type-2 Fuzzy Control, *Accepted for presentation at IEEE Congress on Evolutionary Computation TEEE CEC'17*, (*IEEE Digital Library*) San Sebastian, Spain, June, 1191-1198.

14. **Vigneysh, T., and Kumarappan, N., (2017)**, Dynamic Modeling and Control of Utility Interactive Micro-grid Using Fuzzy Logic Controller, *Proceedings of Second International Conference on Intelligent and Efficient Electrical Systems, ICIEES'17 (Springer), PSG Tech, Coimbatore*, January, 97 - 106.
15. **Vigneysh, T., and Kumarappan, N., (2016)**, Operation and Control of Hybrid Micro-grid Using Z-Source Converter in Grid Tied Mode, *Proceedings of 2nd International Conference on Applied and Theoretical Computing and Communication Technology, IEEE ICATECT 16 (IEEE Digital Library)*, Bangalore, July, 318-323.
16. **Vigneysh, T., and Kumarappan, N., (2013)**, Operation and control of Wind/fuel cell based hybrid micro-grid in grid connected mode, *Proceedings of International Multi-Conference on Automation, Computing, Communication, Control and Compressed Sensing, IEEE IMacds'13 (IEEE Digital Library)*, Kottayam, March, 754-758.
17. **Saravanan, G., Yamuna, G. and Vivek, R. (2013)**, A Color Image Enhancement based on Discrete Wavelet Transform, *Proceedings on National Conference on Emerging Trends in Information & Communication Technology (NCETICT 2013)*, MEFGI, Rajkot, Gujarat, India.
18. **Saravanan, G., and Yamuna, G. and Sasikala, J. (2016)**, Color Image Enhancement Based On Dwt Using Linear And Non-Linear Filtering Techniques, *Proceedings on Second National Conference on Research and Development in Science, Engineering and Technology'16 (NCRDSET'16)*, India, March, pp 251-260.
19. **Saravanan, G., Yamuna, G. and Nandhini, S.,** Real Time Implementation of RGB to HSV/HSI/HSL and Its Reverse Colour Space Models", *Proceedings of the IEEE International Conference on Communication and Signal Processing, ICCSP'16.* (Accepted for publication).
20. **G.Yamuna,T. Shankar,M.Sundararajan** ,"A digital image watermarking Technique based on DCT and Fuzzy logic" *Proceedings of the International Conference on Advances in Engineering and technology*, pp. 1-4, May 2011.

21. **M.Sundararajan and G.Yamuna**, "DWT based Scheme for video watermarking" *Proceedings of the IEEE International Conference on Communication and Signal Processing (ICCSP'13)*, Vol. 367, pp 370-374, April 2013.
22. **M.Sundararajan and G.Yamuna**, "Optimization of Colour Image Watermarking Using Area of Best Fit Equation and Cuckoo Search Algorithm", *Elsevier Proceeding of Material Today* (Accepted).
23. **Thamaraichelvi, B., Yamuna, G., and Vanitha, U (2012)** An Improved Method of Image Segmentation using Fuzzy C-Means, *IEEE-International Conference on Advances in Engineering, Science and Management (ICAESM-2012)*, March 30-31, pp.669-671. (E.G.S Pillai College of Engineering, Nagapattinam).
24. **Thamaraichelvi, B., and Yamuna, G (2013)** A Novel Efficient Kernelized Fuzzy C-Means with Additive Bias Field for Brain Image Segmentation. *IEFE International Conference on Communication and Signal Processing*, April 3-5 pp. 68-72. (Adhi Parashakthi College of Engineering, Melmaruvathur)
25. **P.Kalyana sundaram, R. Neela, (2015)**, Power Quality Disturbance Classification using Adaptive Linear Neural Network (ADALINE) and Feed-forward Neural Network (FFNN), *2nd International Conference on Sensing, Signal processing and Security (ICSSS-2015) Middle-East Journal of Scientific Research*, ISSN: 1990-9233, pp. 201-221.
26. **N. Mohananthini and G. Yamuna**, "Watermarking for Images using Wavelet International domain in Back-Propagation Neural Network", *IEEE Conference on Advances in Engineering, Science and Management (ICAESM 2012)*, organized by E.G.S. Pillay Engineering College, Nagapattinam, pp. 10 105, 2012.
27. **N. Mohananthini and G. Yamuna**, "Color Image Multiple Watermarking Scheme based on Discrete Wavelet Transform", *IJERT -International Conference on Science, Engineering and Management (ICSEM-2013)*.organized by Srinivasan Engineering College, Perambalur, pp. 783-787, 2013.

28. **R.Geetha and M.Ramaswamy**, "ISCPWM Strategy for a Series parallel Switched CMLI with Induction Motor Load", *IEEE international conference on Power and Energy systems: Towards Sustainable Energy -2016*, organized by Amrita School of Engineering, Bengaluru. Paper Code: 223

29. **M.Kalpanadevi, Dr.R.Bhuvaneswari**, "Differential Evolution Based State Estimation of Electric Power Systems", *Emerging Trends in Electrical Engineering*, Jan 12-14, 2007, Jadavpur University, Kolkatta, pp.28-29. Kolkatta, Jadavpur University.

30. **B. Santhana Krishnan , M. Ramaswamy and Alamelu Nachiappan**, "A New Cluster Based Protocol for Wireless Sensor Networks", *International Conference on Information Science and Application (ICISA-2011)*, IEEE Computer Society, pp. 1-8, 2011.

31. **R.Francis and I. A. Chidambaram**, "Automatic generation control for an Interconnected reheat thermal power system in a deregulated environment with redox flow batteries", *IEEE International conference (ICEE 2009)*, Pondicherry, pp 11-17, 2009.

32. **R.Francis and I. A. Chidambaram**, "Automatic generation control of two area interconnected power system based on CPS using fuzzy neural network", *IEEE International conference (ICETECT 2011)*, Nagerkovil, pp 200-205, 2011.

33. **R. Ashok Kumar, K. Asokan and S. Ranjith Kumar**, "Optimal Scheduling of Generators to Maximize GENCOS profit using LR combined with ABC Algorithm in Deregulated Power System" *IEEE Conference Preceding on Computation of Power, Energy, Information and Communication (ICCPEIC)*, Adhiparasakthi Engineering College, Melmaruvathur, pp. 75-83, April 2013.

34. **K. Asokan and R. Ashok Kumar**, "Profit based Optimal Generation Scheduling of Generation Company in Competitive Electricity Markets" *International Conference on Marketing Information and Strategies: Core for Development*, Annamalai University Annamalai Nagar, pp. 324-330, Aug 2012.

35. **Suresh, K. and Kumarappan, N.** "Coordination mechanism of maintenance scheduling using modified PSO in a restructured power market", *Proceedings of International IEEE Symposium Series on Computational Intelligence (SSCI) 2013*, Singapore, April 15-19, 2013, Paper No. SS-0263.

36. **Suresh, K. and Kumarappan, N.** "Hybrid particle swarm optimization Based generation maintenance scheduling in the restructured power system", *Proceedings of International conference on System Methodologies Automation and Research Trends (SMART 2012)*, Pondicherry, December 12-14, Vol. 1, pp. 64-68, 2012.
37. **Suresh, K. and Kumarappan, N.** "Particle swarm optimization based generation Maintenance scheduling using probabilistic approach", *Proceedings of Power, International Conference on Communication Technology and System Design" (ICCTSD2011)*, Coimbatore, Vol. 1, No.1, Pp. 1185-1193, December 7 9, 2011. and Elseveir Procedia Engineering, Vol. 30, pp. 1146 – 1154, 2012.
38. **Suresh, K. and Kumarappan, N.** "Genetic algorithm based maintenance Scheduling using levelized risk method and evaluation of system reliability Analysis", *Proceedings of international Conference on Power, Control and Embedded Systems" (ICPCES2010)*, Chennai, Vol. 1, pp. 49-55, December 9-12, 2010.
39. **Suresh, K. and Kumarappan, N.** "Particle swarm optimization based Maintenance scheduling using levelized risk method and evaluation of System wellbeing index evaluation", *Proceedings of IEEE International Conference on World Congress on Computational Intelligence (IEEE WCCI- 2010)*, Barcelona, Spain, Vol. 1, pp.1-7, July 18-23, 2010. Digital Object Identifier: 10.1109/CEC.2010.5586306
40. **Kumarappan, N., Suresh, K. and Baskaran, J.** "Particle swarm optimization Based approach to maintenance scheduling using levelized risk method", *Proceedings of IEEE Conference on International Advanced Computing Conference (IACC- 2009)*, Patiala, India, pp. 33-38, Vol. I, March 6-7, 2009.
41. **Kumarappan, N., Suresh, K. and Babu V.S.** "Generation maintenance Scheduling with minimum fuel cost using intelligent approach", *Proceedings of National Conference on Power and Energy Systems (NPES'09)*, Vol.1, Pp.47-52, March 6-7, Krishnankoil, India, 2009.

42. **Kumarappan, N. and Suresh, K.** "Particle Swarm optimization based approach to maintenance scheduling using levelized risk method", *Proceedings of International IEEE Power India Conference on Power System Technology, (POWERCON 2008)*, New Delhi, India, Vol.1, pp.1-6, October 12-15, 2008. Digital Object Identifier: 10.1109/ICPST.2008.4745384
43. **Suresh, K. and Kumarappan, N.** "Combined genetic algorithm and Simulated annealing for preventive unit maintenance scheduling in power system", *Proceedings of PES (Power Engineering Society) General Meeting, Montreal, Canada*, Vol. 1, pp. 1-5, June 18-22, 2006. Digital Object Identifier: 10.1109/PES.2006.1709254
44. **Kumarappan, N. and Suresh, K.** "Coordinate maintenance scheduling in power system using combined genetic algorithm and simulated annealing", *Proceedings of International IEEE Power India Conference (POWERCON 2006)*, New Delhi, India, Vol. 1, pp.1-8, April 10-12, 2006, Digital Object Identifier: 10.1109/POWERI.2006.1632547
45. **Kumarappan, N., Suresh, K. and Subha, S.** "Hybrid genetic algorithm for preventive unit maintenance scheduling in power system", *Proceedings of Conference on Computational Intelligence to Emerging Electric Power Systems (CIEEPS-06)*, Pondicherry, India, Vol.1, pp. 22-27, September 7-8, 2006.
